

REMARKS

The Notice of Drawing Inconsistency with Specification dated January 7, 2010 states that Figure 14 is contained in the Drawings but not listed in the Brief Description of the Drawings in the Specification. Applicant herein amends the Specification to include Fig. 14 in the Brief Description of the Drawings. Please replace the Brief Description of the Drawings section on pages 3 and 4 with the following:

-- BRIEF DESCRIPTION OF THE DRAWINGS

Figure 1 is a schematic diagram that illustrates an exemplary peer-to-peer network environment that supports mobile shared group interaction.

Figure 2 is a block diagram that illustrates select components of an exemplary mobile device configured to support mobile shared group interaction.

Figure 3 is a display screen representation of an exemplary non-mobile device shared group experience user interface and a corresponding exemplary mobile device shared group experience user interface.

Figure 4 is a display screen representation of group member presence information as rendered using an exemplary non-mobile device user interface.

Figure 5 is a display screen representation that illustrates a mobile device user interface as displayed to three different users.

Figure 6 is a display screen representation of an exemplary group activities menu as rendered using an exemplary non-mobile device user interface and a corresponding exemplary mobile device user interface.

Figure 7 is a display screen representation of an exemplary bubble message as rendered using an exemplary non-mobile device user interface and a corresponding exemplary mobile device user interface.

Figure 8 is a display screen representation of an exemplary group photo sharing activity as rendered using an exemplary non-mobile device user interface and a corresponding exemplary mobile device user interface.

Figure 9 is a display screen representation of an exemplary group photo editing activity as rendered using an exemplary non-mobile device user interface and a corresponding exemplary mobile device user interface.

Figure 10 is a display screen representation illustrating image acquisition and association of location data with an image as rendered using an exemplary mobile device user interface.

Figure 11 is a display screen representation of an exemplary group voting activity applied to an image as rendered using an exemplary non-mobile device user interface and a corresponding exemplary mobile device user interface.

Figure 12 is a display screen representation of an exemplary calling card introduction as rendered using an exemplary mobile device user interface.

Figure 13 is a display screen representation of an exemplary invitation for a third user to join a group musicmix activity being shared by two members of a group.

Figure 14 is a flow diagram of an illustrative process for a mobile shared group interaction.--

Conclusion

Applicant respectfully requests a call to discuss any remaining issues.

Respectfully Submitted,

Dated: January 15, 2010
